Thank you for the information, I have a photo of our Jane Doe and a photo of your missing woman, I am sending it to you just so you can see why I felt like this woman may be your Susan Powell. As we discussed our Jane Doe had a full mouth of dental implants which were very expensive. Let's just say that just maybe our Jane Doe is your Susan Powell there would be a year to have had this procedure done as she went missing Dec 2009 and we found our Jane Doe Oct 2010...as you will see in the scanned photo I sent you our Jane Doe is wearing a cross pendant can you tell me if Susan Powell had any item of jewelry that matches. I am thinking it may not be her but yet the similarities do have me wondering.. Please contact me if you have any questions. Thank you for your time.

Wow. I wish I could tell you what jewelry she could be wearing but her husband wasn't any help. Susan's DNA is in CODIS, when's the soonest a DNA comparison could be completed? I'm thinking we would want to use DNA to prove or disprove because you're right there was a year where the dental work could've been performed.

I will be contacting the Office of the Medical Examiner to find out when we can obtain a sample of her DNA so we may take to our Crime Lab for analysis I will request they expedite and hopefully we will have an answer within a few short months. I know it's a long shot but that photo of Susan Powell against our Jane Doe is eerie, several of us here feel there are a lot of similarities. Does anyone in her family other than her husband, know if she owned a pendant as shown in the photo? What was your take on the photo? It wasn't aligned perfectly.

The cross pendant wouldn't be something she would wear simply because she is/was LDS and they don't wear crosses. The eyebrows is the only other thing that I question. Although these two things can not eliminate the possibilities. You're right the similarities are so close it's eerie! The eyes, lips, nose, cheeks, forehead, and hair.

Can you call me? [REDACTED] is my mobile...
