In thinking over my full conversation with Susan about the folder she kept in her desk, not only do I remember her saying to look at Josh, but she indicated that if something were to happened to her it would be Josh. It seems like I clarified something like if she dissappeared or what and that is when it seems like she said if something like that(dissappearing/missing) happened it would be Josh. If I remember right she said 'he thinks he is smart enough to get away with it'. That made me think that in his threat to her he told her something to that effect.

On a side question, that man who died in the muddy putty caves recently, it sounds like they might seal up that cave and leave his body in there. Might also be a place one could hide something they didn't want found? If there were any type of dirt all over his clothing, might be another place to look. Wasn't there a cave somewhere that they have sealed up where the young scout was missing for 5 days many years ago? could someone have opened that one up? Probably just wishfull thinking that maybe something like that could have been where she was hidden, but if it adds up with anything you already have??? I will let you know if anything more comes to mind.
