Sorry, I had computer problems and the information did not get forwarded to Josh until yesterday. He is going to try to meet the deadline.

I will talk to him about the password situation.

I haven't heard if you passed the message onto Josh about getting his prints taken in Tacoma?

Josh also removed Susan's sim card from her phone as well as his sim card from his phone prior to giving them to us; will you ask Josh if he'll give those sim cards to us?

In regards to the passwords on the digital data and his cellular phone. Josh states he can't remember them although if he sits down with the equipment he may remember. Let's schedule a date and time for him to come to the laboratory so he can log into these hard drives and unlock his cellular phone so we can have access???
