Due to Josh's real-estate business failing Susan had to return to work (according to Susan's journal and family statements). Susan was employed by [REDACTED] in 2008 where she was currently employed.

ACTIVITIES/HOBBIES/INTERESTS

Susan's strongest and most valuable interest was her religion. Susan was an active member of the Mormon Church. Susan attended weekly Sunday services, she was a member of the church choir, the churches relief society, and she was involved in a crocheting club that was attached to the relief society. According to friends, family, and Susan's own writings it was her goal and desire to bring her children up in this religion. Susan would more often than not attend services with only her children. On occasion and sporadic through 2008 Josh would attend services with the family (according to Susan's journal and friends statements).

Away from work and church Susan's other interest was gardening. Susan would garden and harvest a variety of vegetables in their backyard throughout the summer months. Susan wrote about this in her journals, shared the information with friends and family. Although it appeared the reason she was gardening was because Josh wanted her too so they could save money from making purchases at the grocery store.

Susan wrote in a personal journal sometimes weekly sometimes it would be several months in between writings. Susan wrote about a variety of things, from her children being born, gardening, attending church activities, family trips/vacations, and more importantly her relationship with Josh. Susan mentioned in her last journal that began January 2002, that she has written in journals since she was eight years old. Susan says in her journal these older journals were packed away and that she hasn't written in one for

several years because of the busy life of high school, college, and married life.

Susan became an independent beauty consultant for [REDACTED] towards the end of July 2009 according to her emails.
