Steven Craig Powell

Dear Steve:

I am interested in speaking with you before your discharge. If I travel to  will you please visit with me?

There is much to discuss. You have never received an opportunity to articulate the loss of your son and grandsons. There remains a question of how the FBI treated you after those events. The Coxes have used what happened at Josh's rental home to further their case Josh killed Susan.

I realize you may not be able to or may not want to discuss the allegations raised against you at your trial. I can forgo those discussions, if you require it. But let's please talk about other things.

If you wish to speak, let's try to schedule something with prison staff so you don't expend your visiting hours with your family. I can address that issue with the staff.

I await word from you.

Sincerely,
