Attached are revisions of the documents I left with Agents Johnson of SLC and France of Tacoma on February 24, 2009. I have added around 500 words or so to what I gave them.

There is a lot here. I tried to keep it organized and coherent, but if I did not succeed in that, hopefully there are some new ideas for further investigation. I don't have a clue what kind of resources any of your agencies have available for this investigation. There are a lot of places and people I would look at, and questions I would ask, if I were the one looking for answers about the disappearances of [REDACTED] and Powell. Of course I am most interested in the search for Susan Powell. If I judged by the media, no-one is looking for her. Most of those interviewed by the media think she is dead. I think [REDACTED] family was also tramping through fields looking for a body. So I hope what I am submitting will provide some new avenues to consider in a search for two living people.

This whole thing is pretty discouraging to me. It had occurred to me that we might talk People Magazine into putting [REDACTED] and Powell's pictures side by side on the cover of their Portuguese-language edition. That would show up on news stands all over Brazil. However as I mention in the attachment, if these "disappeareds" have left the country, they have probably totally changed their appearance, which Susan could facilitate nicely, since she is a trained cosmetologist. She could have black hair and glasses. He could have a mustache, beard and long hair. Since they seem to really want to be lost to us, they may have changed everything about themselves, including their names.

Anyway, thanks for considering my suggestions. My cell phone number is [REDACTED] if you need clarification on anything. I hope I can help.
