If something happens to me, please talk to my sister in law Jenny Graves, my friend Kiirsi Hellewell, check my blogs on myspace - [REDACTED], check my work desk, talk to my friends, co-workers →

and family. It is an open fact that we have life insurance policies of over a million if we die in the next 4 yrs. coworkers, fam/friends here me say this occasionally.

I want my marriage to work out, I've told my husband he is depressed or has issues & we as a family of 4 are not happy & not showing how a husband/wife should interact. That we are messing up our children. He doesn't want to do counseling & says if I were to buy groceries for cheap sale prices (these prices don't exist now w/ the cost of gas going ↑) ... that he would be happy w/ this well purchased bargain deal food in his stomach would make him happy & our marital problems would be solved. He also said he's mean to me "blc of the Republicans" direct quote, then he mentioned something about how terrible our economy is (blc of Rep) & if that were fixed, we wouldn't have these problems.

If I die, it may not be an accident, even if it looks like one. Take care of my boys, I want my parents
[redacted] Chuck Cox very involved & in charge of their lives.

If they aren't there my sister [redacted]
can hopefully be responsible. I love my boys, I live for them.
I choose not to cheat or do drugs b/c I wouldn't want to risk losing them
like [redacted] w/ her. [redacted]
