
LEGEND OF THE LEPRECHAUN

On the Eve of St. Patrick's day, Leprechauns come out to play. They travel to us Through Mystical portals called fairy rings unfamiliar to most mortals. These magical rings are made of flowers, rocks, clovers or other things.

Each Leprechaun comes in search to find a treasure of gold in any shape or kind.

Dressed in green, orange or yellow, this tiny Leprechaun is one tmischievous fellow. He loves practical jokes and will try to trick you. He also gives a reward if you prank him too.

If you can be so bold as to trick him to search your house for his gold, if he has no luck, the story is said, he must leave some treasure for you instead.

They wont just leave your gift in plain sight, they'll hide it away for the rest of the night. The warning is this, if you don't find your gift on St. Patties Day, they get to reclaim it and take it away!

Lucky for you, they unknowingly scatter some kind of trail behind as they patter.

So now is the time to plan and prepare for this opportunity alas is quite rare. Get out your rainbows, your greens and your golds and trick this small Leprechaun before you're too old!
